

WE ARE A TEAM OF PASSIONATE FLORICULTURISTS AND VISIONARY LICENSED LANDSCAPE DESIGNERS,

of down-to-earth irrigation specialists, Johnny-on-the-spot installers, and green-thumb gardeners. For more than 30 years now, Landscape Workshop has created and preserved unique outdoor environs – commercial, residential, and industrial. We don’t simply landscape a place, we create and nurture an ongoing outdoor experience – and there’s a very real difference between the two. We do not think of Landscape Workshop as simply a landscaping company; rather, we approach each project seeking to transform, to be creators of **UNCOMMON OUTDOOR SPACES.**

Our **“HANDS”** are made up of a team of knowledgeable professionals who are dedicated to providing quality, proactive management. Our primary focus is to exceed our customers’ expectations at all times. Satisfied customers allow us to reinvest in our personnel and processes and continually strive to “create uncommon outdoor spaces.” We take pride in our work and company.

LANDSCAPE WORKSHOP is undergoing incredible growth and with this growth comes the need for new additions to the family. We are seeking well qualified, responsible and hardworking people to join us in our growth.

We are currently seeking individuals for the following positions:

- **Sales Executive (Mobile, Huntsville & Montgomery)**
- **Maintenance Crew Foreman**
- **LEAD Program Apprenticeship (Leadership Education and Development Program–Account Manager)**
-Specialized leadership program for developing graduating students into Account Managers. The LEAD program includes technical knowledge classes, leadership development workshop, and job rotation.

Why Landscape Workshop?

- Innovative, results-driven company culture
- Work on exciting, complex and challenging projects
- Focus on career development and educational activities
- Extensive portfolio of award winning projects
- Competitive compensation and benefits program
- Financially stable and aggressively growing company
- Family oriented organization
- Exponential growth potential

Having something of a collective “**green thumb**” is a gift we enjoy sharing with our community, whether it’s the community in which we live and work, or the professional community of landscapers. In fact, one of our employees is the first landscaper to serve on the Alabama Nursery and Landscape Association’s Board of Directors.

If you feel that **Landscape Workshop** is career choice for you please send your resume and references to the attention of **Rachel Parker**:
